

Infiniti / Nissan Wireless CarPlay Installation Diagram

Dip Switch	Status	Description
4	ON	Reverse guideline OFF
	OFF	Reverse guideline ON
8	ON	Original Rear Camera
	OFF	Aftermarket Rear Camera
1,2,3,5,6,7 no function, set all OFF.		

Note: If CarPlay Touch is unresponsive or insensitive, turn on DIP switch 7, then disconnect and reconnect the power cord. When the calibration crosshairs appear on the screen, tap the center of the crosshairs. Repeat this process until calibration is complete, then tap "OK". After calibration, return DIP switch 7 to its initial off position.

1, Open the back cover of the screen, remove the screws in the middle of the board and untie the three cables to remove the board first

2, Install the screen switch board on the back of the screen docking the 10P touch line, 60P screen cable and LVDS line (note the LVDS outlet position).

3, The corresponding card of the board is clamped at the bottom of the middle screw bracket, and it can be fixed by adding a little acetate tape. (Note that an insulating spacer needs to be added to the bottom of the board)

4, Restore the original car board, lay the middle screws, and insert the 60P and 12P cables into the corresponding original car seat.

How to Connect Wireless Apple CarPlay

1, Long press switch button (different car with different switch button, check from installation diagram) to enter system main menu as below (BMW for example):

2, Then turn ON Wi-Fi from iPhone's settings, you will find option of "WiFi-AP-****", but DO NOT need connect it, and DON'T connect any other network.

Turn ON Bluetooth, find and click "Audio Detail", then according below steps get wireless connection (Note: If "Audio Detail" shows connected, but didn't go to CarPlay, then click Setup -> Bluetooth -> Paired device -> WiFi CarPlay then iPhone will show Use CarPlay request)

3, After 5 sec, it will enter CarPlay screen automatically, then enjoying...
