

SERIES : BLACKAIR

TYPE : COMPONENT

SIZE : 6.5" (165mm)

BLACKAIR SERIES

BlackAir 6 Comp[onent 6.5" (165mm) Component speaker

Model	BA6C-V6
Type	Component
Configuration	2-way
Speaker Size	6.5" (165mm)
Peak/RMS Power	420W / 140W
Sensitivity	95dB
Freq. Response	45Hz - 25kHz
Impedance	3.2Ω
Mount. Depth	2.6" (65mm)
Mount. Diameter	5.7" (145mm)

KEVLAR CONE - Woven fiber cone produced deep bass, clear vocals and minimal distortion due to its rigidity and strength .

RUBBER SURROUND - The speakers rubber surround offers a warmer response than that of foam and all round greater depth of sound and additional bass response.

FERRITE MAG - Powerful Ferrite magnet provides extreme motor force.

SCREW TERMINAL - High quality scre terminals for secure and easy wire connection to the speaker.

TORSION BASKET - Angular torsion basket supports the large motor system and the moving parts of the speaker.

SEPARATE CROSSOVER - 2nd order 12dB per octave crossover delivers superior sound quality.

SILK DOME TWEETER - delivers smooth high frequency reproductiona and clear vocals.
